69-Year-Old Male suffers from rotational whiplash

May 20, 2003

To Whom It May Concern

I have suffered neck and head pain for many years from a rotational whiplash.

I started taking 'Frankincense' and 'Idaho Balsam Fir' since on or about the 14th of April 2003. I immediately had less head pain and was able to stay up and work most of every day since taking the 'Young Living Oils'. I feel better and can stay up on a sustaining level. I can travel easier.

I also had been fighting a rash (broken skin) on my left hand on top and 1st row of knuckles. I noticed one day it (rash) was gone and my skin was soft and had regained its color.

I am grateful for my improvement and can only attribute that improvement to using the 'Young Living Oils'.

Sincerely,

Cameron B.
